

FOSTERLANG

WP7 kick-off meeting

7. April 2025

Participants

- Haley de Korne UiO
- Åshild Næss UiO
- Nuranindia Endah Arum UiO
- Michael Hornsby AMU
- Anna Szczepaniak-Kozak AMU
- Emilia Wąsikiewicz-Firley AMU
- Tomasz Wicherkiewicz AMU
- Alona Kononenko-Szoszkiewicz AMU
- Elin Haf Gruffydd Jones ELEN
- Davyth Hicks ELEN
- Agnieszka Otwinowska-Kasztelanic UW
- Joanna Dolińska UW
- Mònica Perenya LPX
- Iker Erdocia Iniguez DCU

UNIVERSITETET

		WP7
1/UW	University of Warsaw (UW)	
2/AW	Association "Wilamowianie" (AW)	0.5
3/RB	Association Ruska Bursa (RB)	0.2
4/NS	Naja Szkola (NS)	0.1
5/ELEN	European Language Equality Network (ELEN)	11
6/AMU	Adam Mickiewicz University (AMU)	17.4
7/MPI	Max Planck Institute for Psycholinguistics (MPI)	
8/LPX	Linguapax International (LPX)	
9/EHU	University of the Basque Country (EHU)	
10/DCU	Dublin City University (DCU)	
11/UIO	University of Oslo (UIO)	13
12/UHI	University of Highlands and Islands (UHI)	
13/UWTSD	University of Wales Trinity Saint David (UWTSD)	
14/PHK	University of Teacher Education Carinthia (PHK)	
Total Person Months		42.2

WP7 = Effective multilingualism policies

- **ecological approach** to evaluate and propose **improvements to language policies** in Europe
- construing **multilingualism as an asset**
- **multifaceted relations between language policies and language environment** taken into account
- The analysis and recommendations will concern
 - **macro** (EU, state),
 - **meso** (communities, regions; educational authorities at either *macro* or *meso* levels),
 - **micro** (families, schools, individuals) levels, e.g. inclusive school-family partnerships, both from a top-down, decision-making perspective, and a bottom-up approach (grassroots initiatives of individual activists, families and communities) and in relation to key factors of linguistic capital, multilingualism, and minority languages.

WP7 = Effective multilingualism policies

- drawing on policy documents and ethnographic and interview data in each case study to gain an in-depth understanding of how these social and individual-level contexts interact and affect each other (cf. Skerrett 2016).
 - enhanced comprehension of the complex multilingual realities and power dynamics between and among language groups/communities scrutinising the interrelations among languages within their societal milieus, and various levels of language policies (Blackledge 2008).
 - employing the Ferguson Tollefson Matrix (FTM) devised by Kan (2011) and Kan and Adamson (2016) for in-depth analysis and evaluation of educational language policies.
 - review of existing linguistic, educational and non-linguistic factors in language policies, such as
 - economic,
 - demographic,
 - demolingistic,
 - political and ideological constellations,
 - in connection to instruments of language policy and
- + examining questions of existing power imbalance and inequality in selected situations of language minoritisation
= in order to evaluate language policies in relation to the development and promotion of linguistic capital, in synergy with WP 2, 3, and 4

ZOTERO

www.zotero.org

free, open-source tool that helps you organize, analyze, and share research sources
available as a desktop application for Windows, macOS, and Linux, and as a mobile app for iOS.

- **Collect sources:** save sources from the web with a single click using the Zotero connector for a browser
 - **Organize sources:** create a library of organized sources
 - **Annotate sources:** add annotations to the sources
 - **Cite sources:** create in-text citations and bibliographies in a variety of styles
 - **Share sources:** share sources
-
- integrates with word processors, including Google Docs, through the Firefox and Chrome connectors
 - [ILO Research Guides](#): Learn how to use Zotero to collect, organize, and analyze research sources

objectives

- 07.1: Identify and evaluate** how language **policy instruments in Europe** impact the development and promotion of linguistic capital, including current weaknesses and best practices. The evaluation will consider language policies and their educational, legal, economic, media and social aspects at three levels: macro [(Council of) Europe and states], meso (communities; regions), and micro (families, schools, individuals).
- 07.2: Examine the interplay of top-down** (authorities' decision-making) **and bottom-up** (grassroots initiatives of individual activists, communities, schools and families) **policy processes** on the promotion of linguistic capital and multilingualism, including socio-economic (WP4) and educational (WP3) factors.
- 07.3: Conduct a comparative analysis of research on multilingual educational policies** to support tasks in WP3, collecting data to share best practices from other multilingual countries across the globe.
- 07.4: Build the capacity of endangered language advocates**, including youth, towards greater democratic participation in minority language preservation supporting linguistic capital in Europe.

work task 1

T7.1: Evaluate language policies in relation to the development and promotion of linguistic capital.

Undertake a critical analysis of existing linguistic, educational and non-linguistic factors in language policies, such as economic, demographic, demolinguistic, political and ideological constellations, in connection to instruments of language policy.

This analysis will map the European policy space in relation to key factors of linguistic capital, multilingualism, and minority languages, asking how each of these factors is understood and included (or excluded) by policy instruments at macro, meso and micro levels.

(M2-28→D7.1, 7.5).

Task leader: AMU.

work task 2

T7.2: Examine democratic participation and decision-making processes which support multilingual ecosystems in Europe through 3 strategic case studies of top-down and bottom-up political processes in multilingual regions.

Define key processes and implementation paths for language policy that support the development of linguistic capital in today's multilingual European communities.

(M4-28→D7.1, 7.5).

Task leader: UiO.

work task 3

T7.3: Create a repository of representative good practices in democratic participation and processes in language policies, including multilingual education policies

(M6-30→D7.2, related to WP3→T3.2).

Task leader: UiO.

work task 4

T7.4: Create a basic European didactic portfolio on multilingual policies, historical multilingualism and language endangerment in Europe.

This task involves creating meta-teaching materials that raise awareness of language diversity and endangerment, prompting reflection on language capital and language rights.

It will also showcase effective language-sensitive approaches for teachers and parents, emphasising collaboration between schools and families.

(M6-34→D7.4).

Task leader: AMU

Educational Portfolio

- focusing on European multilingual policies, historical multilingualism, and language endangerment,
- drawing on data from previous projects and FOSTERLANG
- tailored for diverse stakeholders
- to cover linguistic capital issues, linguistic heritage, policies, and rights, aiming to raise awareness of language diversity and endangerment and prompting reflection on language rights
- emphasising collaboration between schools and families
- to integrate all languages into Europe's cultural heritage, leveraging digital resources to support multilingualism, and language rights.

work task 5

T7.5: Multilingual Policies Forum for the discussion of top-down and bottom-up policies, and democratic participation in language policy, held in Poznań.

Co-organise a 5-day forum on European minority/minoritised/endangered languages, discussing more effective cooperation between language planners, activists and EU legislators.

We will contribute to the discussion of how to develop European language policies for the sake of Europe's endangered languages, learning from a broad range of implementations of Indigenous languages policies in Europe and worldwide, and including youth participation

(connected with WP6→T6.1-4). (M19-M26→D7.3).

Task leader: AMU.

Multilingualism Policy Forum in Poznań

- concrete platform for dialogue with European minorities (and non-European Indigenous communities) on multilingual policies.
- to establish lasting partnerships with stakeholders in various language policies (levels) and formulate a detailed multilingual policy roadmap informing LC_RoadMap in WP8.

- **M23 = March 2027**

- **T6.4: Two training weekends**, each linked to the Forums proposed in the project (i.e., the Language Diversity Forum →T6.1 in M11 and the Multilingual Policies Forum →T7.5 in M23).
- The training weekends for individuals from the communities and language NGOs will comprise:
 - a) endangered languages activism workshops;
 - b) legal aspects and language rights;
 - c) digital activism and the role of IT in revitalisation projects, including organising campaigns on social media using tools like Wikipedia, podcasts, social media, etc.;
 - d) shared experiences to identify and collect best practices which aim at empowering speakers to use and teach their languages (e.g. language dating, music festivals, book clubs, theatre activities);
 - e) discussions on how to engage companies, shops, associations, trade unions, health institutions, in the promotion and use of endangered languages;
 - f) capacity building for language organisations. (M11-20→D6.1).
- **Task leaders: LPX, ELEN.**

case studies

... drawing on policy documents and ethnographic and interview data in each case study to gain an in-depth understanding of how these social and individual-level contexts interact and affect each other (cf. Skerrett 2016).

- AMU to think on case studies:
- preliminarily:
 - Kashubian,
 - Cornish
 - Sámi (one of)
 - Romani

... examine democratic participation and decision-making processes which support multilingual ecosystems in Europe through 3 strategic case studies of top-down and bottom-up political processes in multilingual regions

- 3 strategic case-studies to be settled by UiO in consultation with WP3

deliverables

D7.1	Report of the European policy space	Report on the European policy space regarding linguistic capital, multilingualism, and minority languages	WP7		R	PU	28	August 2027
D7.2	Public repository of representative good practices	Public repository of exemplary practices in democratic participation and language policies, encompassing multilingual education policies and materials	WP7		DATA	PU	30	October 2027
D7.3	Outcomes of 2026 Multilingual Policies Forum	Audio-visual documentation and synthesized conclusions addressing language policy gaps and proposing agendas for democratic participation in policy improvement	WP7		DEC	PU	26	June 2027
D7.4	Didactic portfolio	Didactic portfolio on linguistic heritage and language policies in Europe	WP7		DEC	PU	34	February 2028
D7.5	Working paper	Working paper on evaluating language policies (to be published in a high-impact journal)	WP7		R	PU	26	June 2027

next WP7 meeting – end of May 2025

short workshop on employing the Ferguson Tollefson Matrix (FTM) for in-depth analysis and evaluation of educational language policies

- Emilia Wąsikiewicz-Firlej
